

Wire Flatter Machine

Features

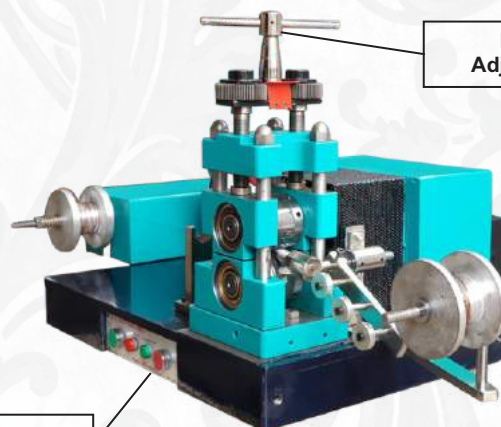

- Roller Width = 100 to 125 mm.
- Roller Diameter = 63 mm.
- Roller Speed = 42 Rpm.
- Roller Thickness = 15 mm.
- Motor Power = 1.5 HP.
- Wire Grooves Sizes = 08-0.9 to 09-0.8 mm.
- Weight Approx = 125 to 165 Kg.

Specification Data

- Heavy duty metal base body to prevent vibration free work process.
- The diamond die holder.
- Automatic wire winders attachment with unwinding reel attachment.
- Steel made body for longer durability.
- Optimum thickness tolerance ≤ 0.005 mm.
